

Environmental Policy

General

Elfa Group develop, produce, sell, and supply its customers with storage products and sliding doors. Elfa strive towards reduced environmental impact through the whole life cycle of its products. From product development to disposal and recycling of products and packaging material. Elfa Group always meet or exceed requirements from relevant environmental legislation as well as other environmental demands. Suppliers, Transport companies, Customers and Consumers are key stake holders in this value chain.

Commitment

Elfa will always aim to improve its environmental performance by:

- Designing products using a minimum of natural resources with a long-life time for the consumers
- Designing product using materials that can be recycled and be used again
- Evaluate and reduce significant environmental aspects in the Supply Chain
- Systematically work to reduce the use of energy in our operations
- Systematically work to reduce or eliminate the use of hazardous substances from our products
- Requesting suppliers, subcontractors, and transport companies to comply with relevant environmental legislation as well as other environmental requirements and objectives stated by the Elfa Group

Elfa will protect the environment by performing risk assessments of its operation and take preventive measures to avoid polluting the environment in case of accidents.

Elfa supply units will secure fulfillment of compliance obligations based on both relevant environmental legislation, stakeholder analysis and significant environmental aspects.

Responsibility, leadership, and communication

The Group Management Team is responsible for implementing this policy within Elfa, influencing all employees to contribute to a sustainable value chain.

Environmental objectives will be set and followed up by the Group Management Team, with the purpose of continually improve the environmental performance of its operation.

This policy and the result from it shall be communicated both within the organization and made accessible for all relevant stakeholders.
